11th International Digital Curation Conference

"Visible data, invisible infrastructure"

22 - 25 February 2016
Mövenpick Hotel, Amsterdam City Centre, Amsterdam

Overview

Please give us your feedback on IDCC16

Research data management, and digital curation generally, is becoming a mainstream academic activity. Universities and research institutions are ramping up support and infrastructural provision for it. Funding bodies are strengthening their requirements for it. Visionary researchers and practitioners are tackling the remaining barriers.

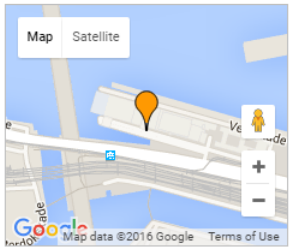
The success of this transition might be measured in two ways. First, is data recognised as a valuable scholarly output, enjoying the same visibility and prestige afforded to journal papers? Second, is the digital curation infrastructure so well embedded and supported that everyone can use it without a second thought?

The 11th International Digital Curation Conference (IDCC16) will be held in Amsterdam at the Mövenpick Hotel Amsterdam City Centre.

The Pre-Conference Drinks Reception will be held on the evening of Monday 22 February 2016 at the Eye Film Institute which is on the northern bank of the IJ harbour in Amsterdam.

There will be a programme of workshops on Monday 22 February and Thursday 25 February and the main conference will run from Tuesday 23 to Wednesday 24 February 2016.

Event Venue



Nearest Tube Station: Muziekgebouw/Bimhuis is the nearest tram stop.

Nearest Railway Station: Amsterdam Central Station

2. 7th RDA plenary (2016.3.1 – 3)

https://rd-alliance.org/plenaries/rda-seventh-plenary-meeting-tokyo-japan

Place : Hitotsubashi Hall, Tokyo
<u>First in Asia</u>

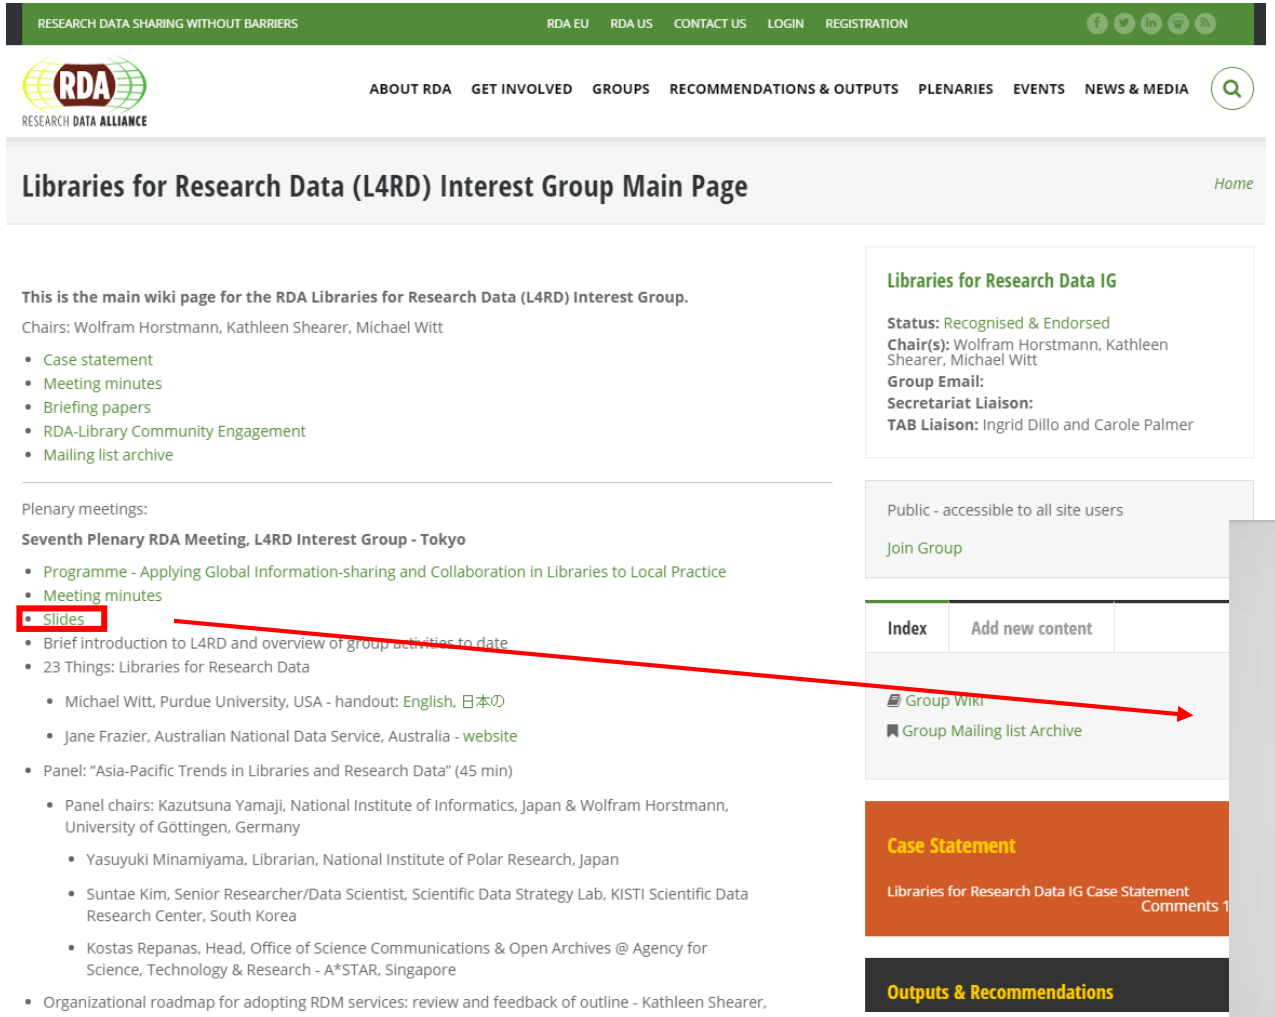
Theme : **”Making data sharing work in the era of Open Science”**

Participants : 363 (Japan:113)

Data sharing symposium (JST, 2/29) and 9 side event had held

Report will be published: https://ir-suishin.repo.nii.ac.jp/

2. 7th RDA plenary (2016.3.1 – 3)

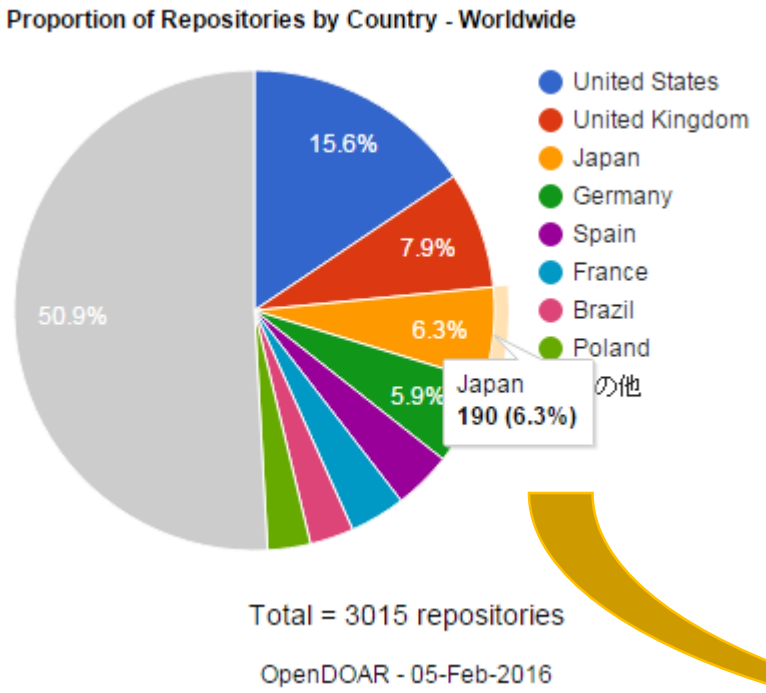


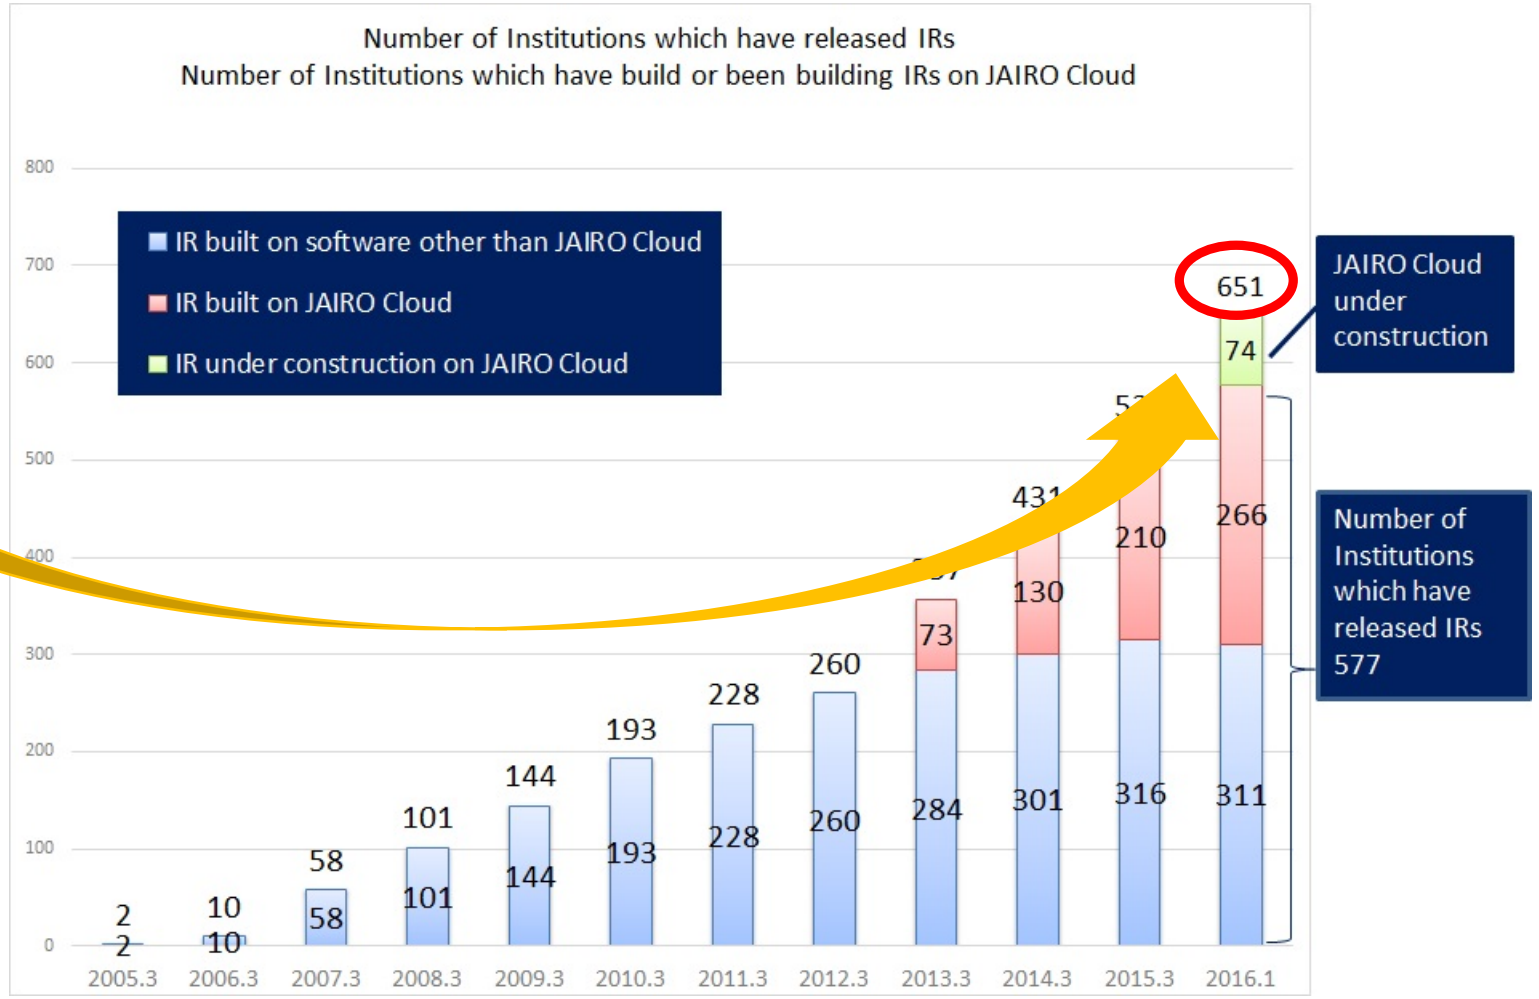
https://rd-alliance.org/groups/libraries-research-data/wiki/libraries-research-data-wiki-index.html

Libraries for Research Data (L4RD) Interest Group meeting

"Applying global information – sharing and collaboration in libraries to local practice" – "Asia-Pacific Trends in Libraries and Research Data"

Number of Japanese Institutional Repository (2015)



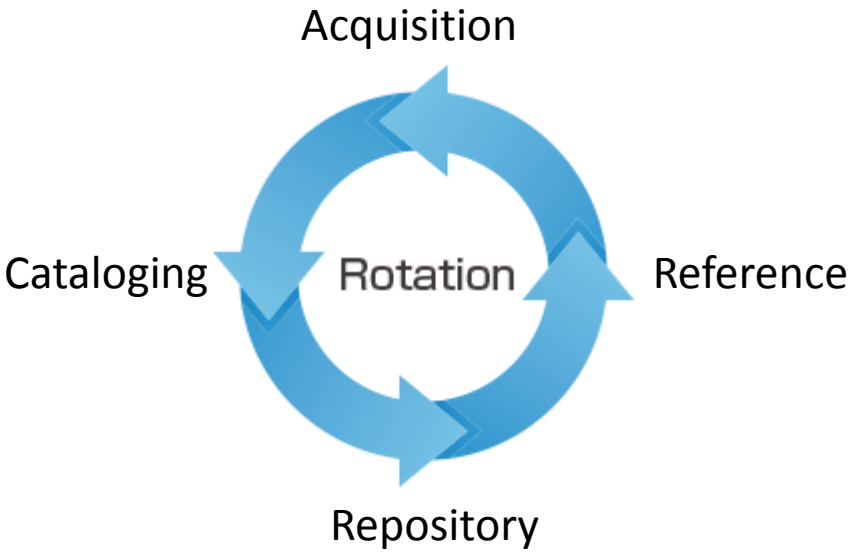


https://www.nii.ac.jp/irp/en/archive/statistic/irp_2015_statistic.html

Working environment (background)

✓Job-rotation system

- ➢Most of repository manager will change his/her position within 2 ~ 3 years
  - ➢Appointed system (e.g. project manager) is not available in Japanese working environment
  - ➢Some are not only librarian but also clerical staff



◆ Problems

- ➢Not transferring repository's know-how
- ➢Not lasting "right man in the right place"

3. Knowledge sharing with Purdue University (2016.3.3)

By IRPC members:

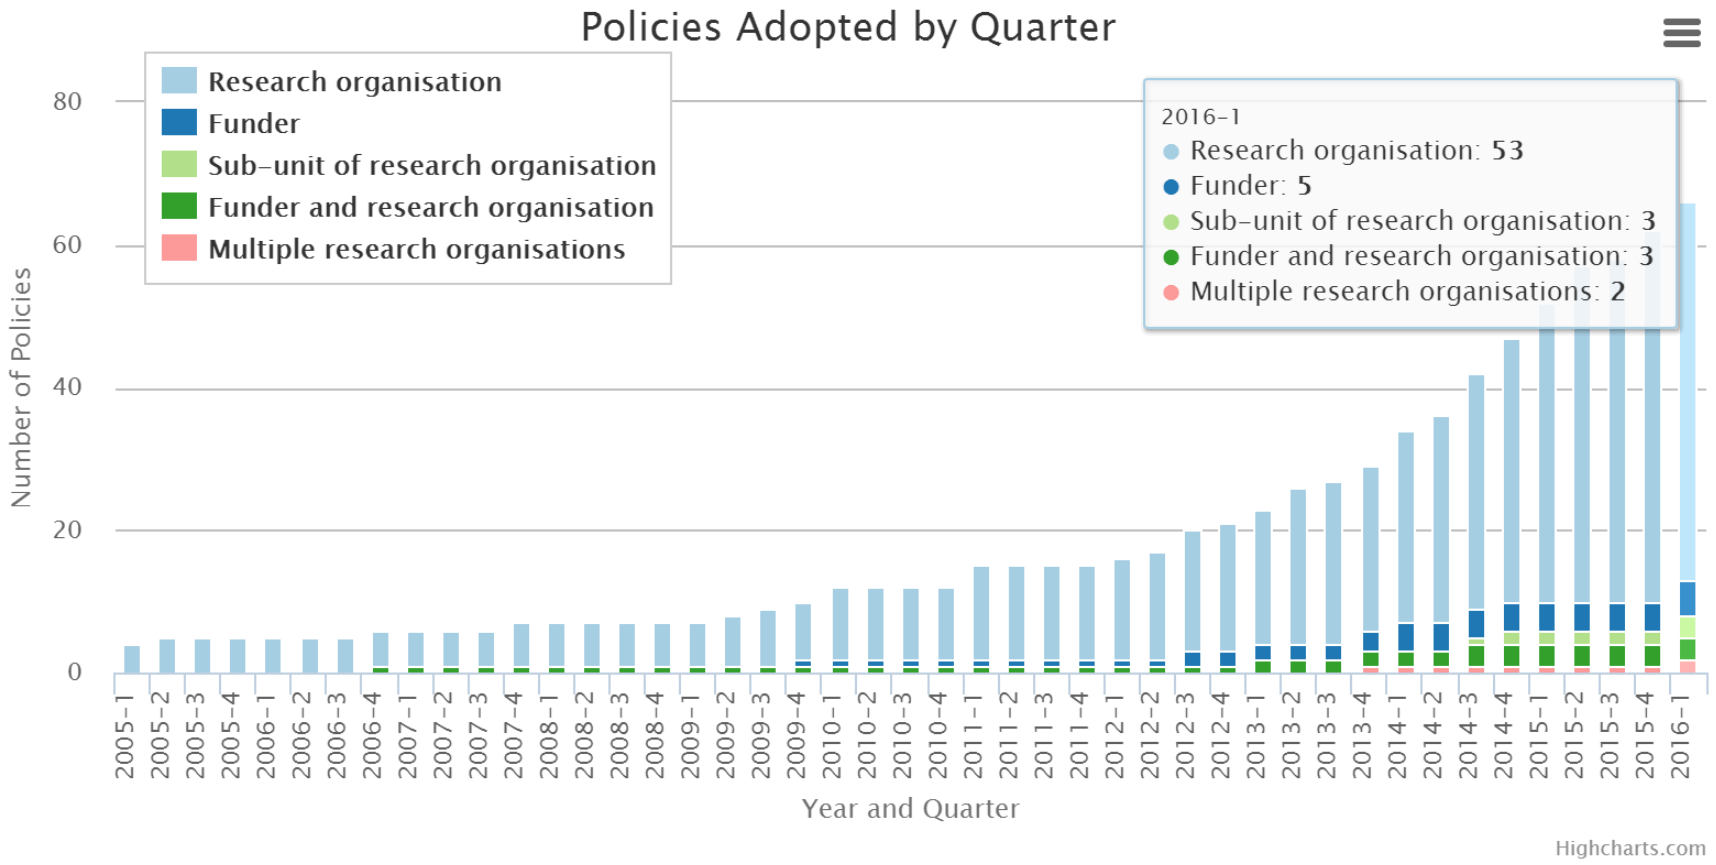
http://drf.lib.hokudai.ac.jp/drf/index.php?plugin=attach&refer=onlineworkshop2015&openfile=Report_on_practices_of_data_interview_in_Japan_20160303.pdf

facebook:
https://www.facebook.com/ir.suishin/posts/462294377307775:0

4. Remark

- ✓Low visibility of Japanese activities
  - OpenDOAR, ROARMAP, etc…
  - “Why do not Japanese librarians register their own repository with OpenDOAR?”
- ✓Lack of institution’s vision / policy
  - Cannot show the perspective of each efforts
  - “Vision / Policy” is necessary element for international cooperation
- ✓For more distribution…
  - Re-understanding Japanese librarian’s current situation
  - Providing a point of view, opinion, idea from Japanese librarian’s standpoint

4. Remark



"Research Data Policy" remains only 66 (2016.1)
