

Online Training

1. Graph Theory, Graph Algorithm, Computational Theory
2. Combinatorial Optimization
3. General Optimization
4. Data Structure and Implementation
5. Discrete Algorithm
6. Programming Languages and Logic
7. Machine Learning (foundation)
8. Machine Learning (application)
9. Natural Language Processing
10. Image Processing
11. Robotics
12. IoT
13. Architecture
14. Database
15. Graphics
16. Human-Computer Interaction
17. Pattern Recognition
