

Mentor list

The following young researchers (mentors) will be responsible for dialogue, advice, and guidance with participants regarding laboratory visits and research plans.

AKIYAMA Soramichi Associate Professor (Ritsumeikan University)
Computer System, System Software

Isonuma Masaru Assistant Professor by Special Appointment
(National Institute of Informatics)
Natural Language Processing, Machine Learning

Oki Taihei Specially Appointed Associate Professor (Hokkaido University)
Combinatorial optimization, Discrete convex analysis, Discrete algorithms

KATAOKA Hirokatsu Senior Principal Investigator
(The National Institute of Advanced Industrial Science and Technology)
Computer Vision

KURITA Syuhei Assistant professor (National Institute of Informatics)
Natural Language Processing, Visual Information Processing

SUGIYAMA Mahito Associate professor
(National Institute of Informatics)
Machine Learning, Artificial Intelligence

Takamichi Shinnosuke Associate Professor (Keio University)
Intelligence science and technology, Spoken language processing

HIRAKI Takefumi Associate Professor
(Cluster Metaverse Lab/Faculty of Library, University of Tsukuba)
Augmented Reality, Human-Computer Interaction

FUJII Kaito Senior Lecturer (Kyoto University)
Combinatorial Optimization, Machine Learning

ISHIHATA Masakazu Chief Researcher
(NTT Communication Science Laboratories)
Artificial Intelligence, Machine Learning, Discrete Structure Processing

URANISHI Yuki Professor (The University of Osaka)
Computer Vision, Augmented Reality

KAJINO Hiroshi
Artificial Intelligence, Machine Learning

KAWASE Yasushi Specially Appointed Associate Professor
(The University of Tokyo)
Discrete Optimization, Algorithmic Game Theory

Kori Mayuko Assistant Professor (Kyoto University)
fixed point theory, category theory, formal verification

TAKAMAEDA Shinya Associate professor (The University of Tokyo)
Computer Architecture, Hardware and Circuits

NARUMI Koya Associate Professor (Keio University)
Human-Computer Interaction, Computational Manufacturing

HIRAHARA Syuichi Associate Professor
(National Institute of Informatics)
Complexity Theory

YAMAGUCHI Yutaro Associate Professor (The University of Osaka)
Combinatorial Optimization, Algorithms
